APEX AND SIMPLEKEY WEB FULLY INTEGRATED SOLUTIONS

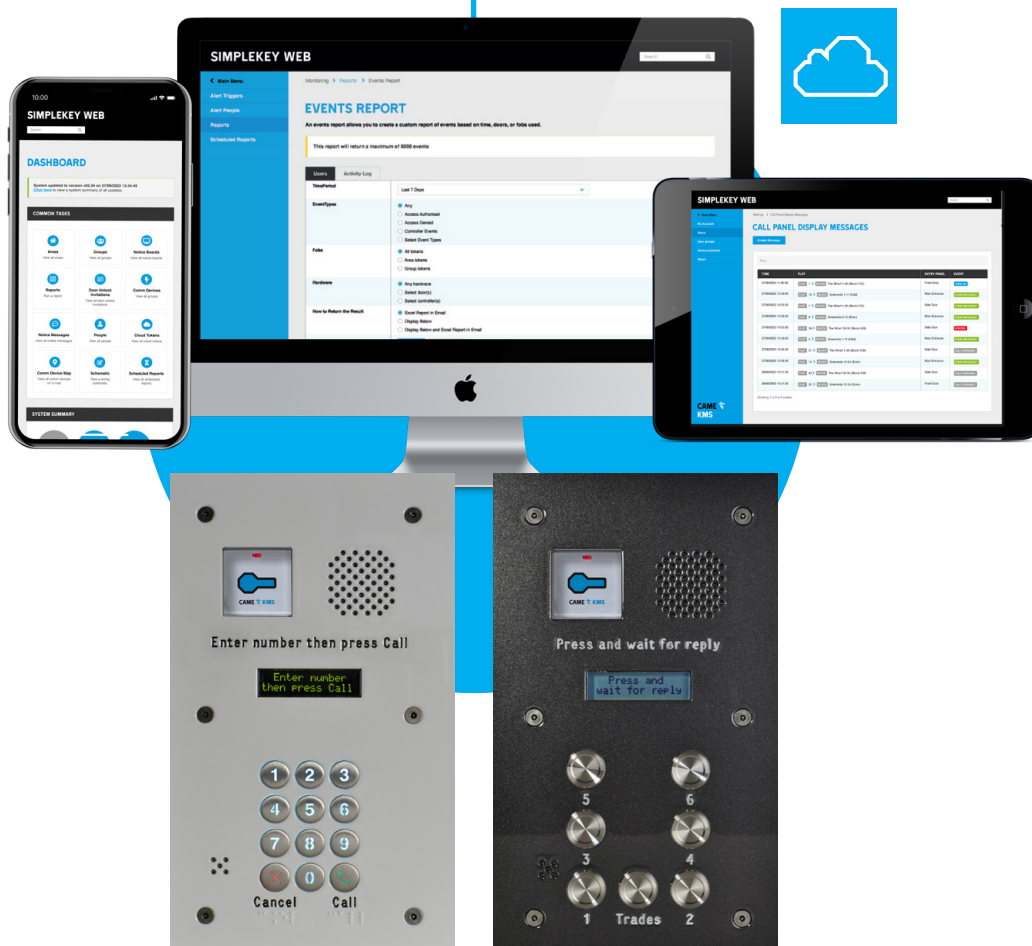

CAME  ENTROTEC
CAME  KMS

COMBINING INDUSTRY LEADING SYSTEMS

CAME  ENTROTEC

CAME  KMS

STRONGER TOGETHER

In 2021, CAME UK acquired Key Management Systems (KMS) and Entrotec Ltd, as part of a strategic development initiative to combine resources and collectively deliver more advanced access control solutions.

CAME KMS and CAME ENTROTEC have been working closely to align systems and develop a comprehensive solution for a mix of private and public developments.

Fully integrating APEX door entry panels with the cloud-based SimpleKey Web access control system will enable both companies to collaboratively deliver a more complete solution for new build and existing developments.

APEX

Designed for low and high rise developments that have multiple apartments and doors, or where concierge facilities are required. Straight forward to install handset marshalling cabinets satisfy even the most complex audio, video or 'mix and match' door entry systems.

FLEXIBLE

Full handset isolation and switch adjustable time periods for all functions.

LIMITED ENERGY USAGE

Energy efficient White on Black OLED displaying panel instructions and call progress messages

ROBUST AND RELIABLE

The stainless steel 2.5mm BS316 call panels are compliant with a number of industry regulations.

SYSTEM LIMITS

Over 1000 digital and functional doors/system with configurable door zoning.

CONFIGURATION FLEXIBILITY

APEX system controllers are supplied in 8, 16 and 24 way formats so there is a solution for every need.

SECURED BY DESIGN COMPLIANCE

All Secured by Design compliance regulations have been met by the APEX door entry range, ensuring a highly secure solution.

SIMPLEKEY WEB

Our SimpleKey Web system is a unique and innovative access control solution for multi user residences. It is now used by over 400 local authorities and housing associations, and controls communal doors in approximately 22,000 housing blocks.

FOB ADMINISTRATION

Fobs can be simply and quickly added or deleted from any web enabled device.

RELEASE DOORS REMOTELY

Open doors from any web enabled device.

MANAGE USERS

Organise users into housing blocks/estates/ user groups so that they may be controlled collectively.

DOOR UNLOCK INVITATION

Allow temporary visitors entry by providing them a digital limited time access credential. Permissions can be pre-configured to guarantee site security.

SYSTEM ALERTS

Emails automatically generated for alerts like door left or forced open.

SCHEDULED REPORTING

Configure SimpleKey Web to generate reports automatically and distribute them to predefined individuals.

MORE BENEFITS DESIGNED FOR YOU

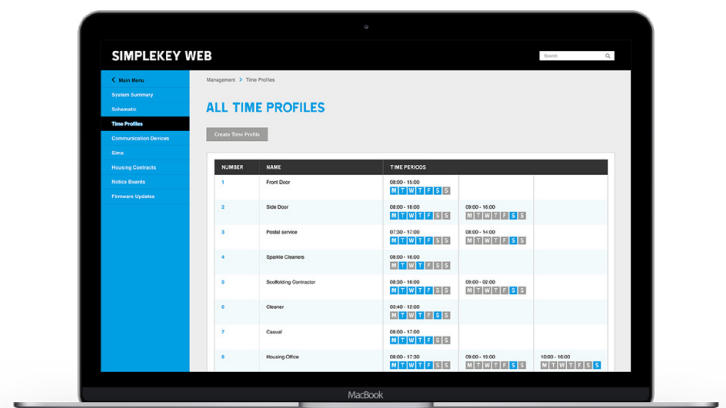

ONGOING SYSTEM UPDATES

Since the system is cloud-based, we can continue to improve functionality with software upgrades, ensuring that the system is always up to date.

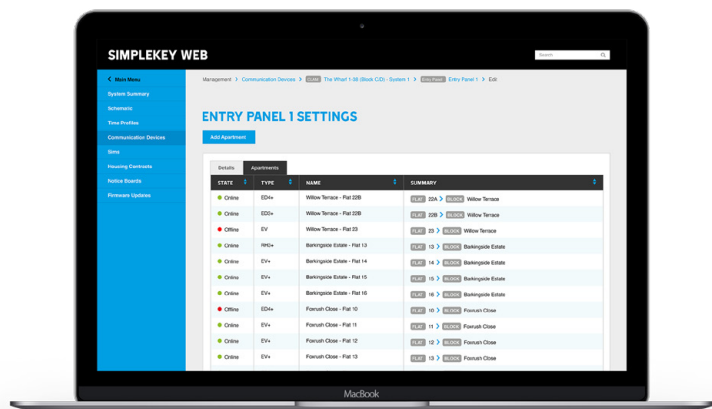

CLOUD BASED MANAGEMENT

Log into your SimpleKey Web platform remotely and manage door operation from any location in the world. Changing system features has never been easier.

DOOR ENTRY TRADES TIME PROFILES

Clients can utilise the SimpleKey system to assign trade profiles, which grant access for specific trade workers. SimpleKey Web allows you to remotely change access times and restrictions.

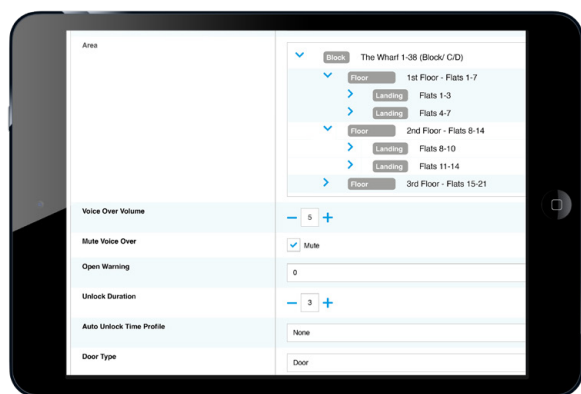

MANAGE CALL PANEL FUNCTIONALITY

Individual call panels can be controlled using SimpleKey Web. Select which apartments can and cannot be called from each entry panel.

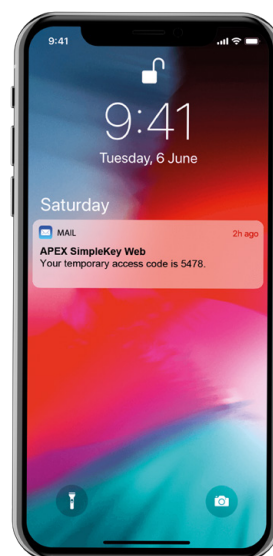

CALL PANEL DISPLAY MESSAGES

Add, remove, or modify entry panel display messages to deliver quick and helpful instructions to users and optimise system utilisation.

ADJUST DOOR UNLOCK TIMES

Remotely alter door unlocking times to optimise system functionality. Shorten the time the door is unlocked to prevent tailgating.

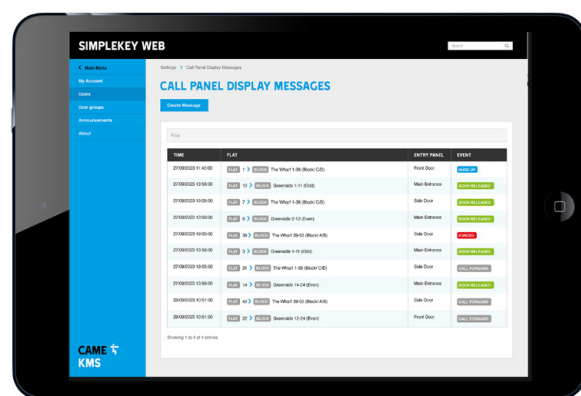

CALL PANEL PIN CODE ACCESS

Remotely manage temporary access via a 4, 5 or 6 digit PIN code to a single or multiple call panels.

CALL PANEL SPEECH VOLUME

Volume levels for panels with Voice Over capabilities can be adjusted within the SimpleKey Web platform and changes are applied instantly.

CALL HISTORY AND ACTIVITY LOG

Visibility of inbound flat calls, including the door entry panel they came from and the outcome (hung up, door released, call forward).

SOLUTIONS THAT SUIT YOU

1

PLANNING A NEW INSTALLATION?

APEX and SimpleKey Web is perfect for new installations.

Designed for building management companies, local councils, and social housing providers, with sites over a geographical area.

2

DO YOU HAVE EXISTING APEX PANELS?

Cost effective component upgrade.

Quickly transform your standalone APEX system to a cloud-based solution managed by SimpleKey Web and have full site visibility from a remote location.

BENEFITS FOR YOU

» PROJECT DEVELOPMENT SERVICES

Industry-leading support including schematic drawings, custom system design, pre-configured systems, and ongoing post-development support.

» BESPOKE SYSTEM CREATION

Prior to dispatch, all systems are pre-programmed, pre-configured, and pre-tested, resulting in a plug and play solution that can be instantly installed.

» FUNCTIONALITY OUT OF THE BOX

All new installations will receive the full range of features and functionality straight out of the box.

BENEFITS FOR YOU

» FUTURE-PROOF CLOUD CONNECTIVITY

Offer a remote concierge service across multiple sites and minimise the number of staff required.

» ENHANCED FEATURE SET

SimpleKey web is the industry's most advanced cloud-based access control system, maximising remote connectivity and site visibility.

» GREATER CONTROL & FLEXIBILITY

Manage door operability from any location in the world and save time travelling to site for simple changes.

ALREADY USING SIMPLEKEY WEB?

Boost system compatibility by installing APEX Entry Panels.

Upgrade to a more robust system that will enhance system functionality and deliver long term benefits. The durability of our door entry panels are unmatched.

BENEFITS FOR YOU

» MAXIMISE INTEGRATION

A system that is designed to work together and seamlessly delivers full compatibility and functionality.

» ADVANCED REPORTING

New integrations allow you to optimise system reporting to obtain a more detailed review on your development.

» SYSTEM DURABILITY

APEX panels are among the very best in the industry and their robust design delivers a hassle free solution.

4

DO YOU ALREADY USE APEX & SIMPLEKEY WEB?

A minor functional upgrade and a site visit from an engineer is all that's required to unlock the full system potential.

This low-cost solution provides numerous benefits and is a straightforward approach to enhance your existing access control solution.

BENEFITS FOR YOU

» COST EFFECTIVE

A quick, easy, and low-cost update will reveal an abundance of new system features.

» MAINTENANCE & IMPROVEMENTS

While your installer is fitting the SimpleKey Gateway, get them to service your system to improve longevity and durability.

» SYSTEM COMPATIBILITY

Monitoring your system has never been easier or more precise. From coded to fob access, better manage user activity and increase resident safety throughout your development.

WHAT YOU NEED TO ADD...

No major hardware is required, just a possible minor system upgrade and a site visit from an engineer to conduct some minor system changes

HOW WE CAN HELP YOU GOING FORWARD

Your first point of contact will be your personal business development manager who will guide you through the initial steps needed to determine which system will suit your needs the best.

FREE STOCK SURVEYS

Business account managers will be at your disposal for assistance with system usage and help you fully optimise the impressive feature set thanks to our free stock surveys. Adding system upgrades could not be easier.

UNDERSTANDING THE SITE SPECIFICATION

Our sales teams are among the very best. Their vast experience allows them to understand site specifications and offer tailored advice, support, and system recommendations based on development requirements.

DELIVERY TIMES

Using trusted logistics companies we ensure a dependable and consistent delivery service. Contact the team to receive an updated delivery date.

TRAINING ON SIMPLEKEY WEB

Contact the team to receive remote training to unlock the best SimpleKey Web features and maximise its full potential.

ONSITE ASSISTANCE

Your business development manager will be on hand to lead you through any issues should it be required.

We're here to ensure that the installation process is as smooth as it can be, guiding the installation team through the setup from start to finish.

SIMPLEKEY WEB COMMISSIONING

Specialists will assist you with system commissioning to guarantee that you get the most out of SimpleKey Web.

SYSTEM COMMISSIONING

All system hardware is pre-built, pre-programmed, and pre-tested prior to dispatch so once set up is complete, users can instantly maximise the full potential of the cloud-based access control solution.

CHECK SIGNAL STRENGTH

Technical teams can monitor signal strength to ensure your SimpleKey Web connection is maximised and maintained.

DOWNLOAD EXISTING FOBS

If you're migrating from another system to our industry-leading SimpleKey Web platform, we can merge your old fob information so that third-party fobs continue to work, saving you time and reducing system downtime.

PRE-HANDOVER

All fobs are delivered to site pre-programmed and clearly labelled. Instantly pass these onto your residents and eliminate the usual hassle involved with moving into a new development.

ADVANCED SYSTEM SETUP

Let our technical team tailor the system to your needs. Even after the installation we can continue to make remote system changes to ensure the access control solution is optimised for your development.

DAY TO DAY SUPPORT

Our customer care line is available 8 hours a day, 5 days a week, post installation.

We are here to help with all of your queries, including:

ADDING AND REMOVING USERS

Allow us to assist you in adding and removing users to the SimpleKey Web eco-system. Whether they are new employees or old residents, we can set up or amend their profile accordingly.

NEW STAFF INDUCTIONS

When new team members join, schedule them for induction training so that they understand the fundamentals of SimpleKey Web administration.

FOB ADMINISTRATION

Not sure how to add, remove or alter access fobs? Our team is available to assist and guide you through the most efficient process.

CREATING GROUPS

Place individuals into groups so they can be managed more easily. For example, create a group for office staff who all have the same access credentials. Let us show you how!

REMOTE SYSTEM CHECKS

We can make system changes remotely, so please contact the team if you think something isn't right. With over 30 years experience we can generally detect a problem before you have even encountered it.

UPDATE DOOR UNLOCK TIMES

Allow our team to assist you in optimising your system by programming doors to unlock automatically at certain times of day to improve overall pedestrian flow.

REPORTING SUPPORT

Our experts can help generate reports so you can gain a valuable system utilisation overview. We can prepare advance reports on your behalf if you want more complex information.
