Transmitters

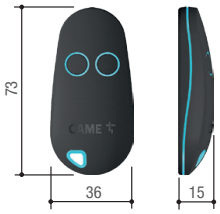

NEW IN 2022 CONNECT 24 V

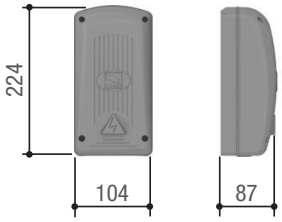

The CAME remote control

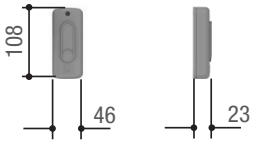

- Four botton rolling code transmitter.
- Self-learning from transmitter to transmitter.
- Self-learning from TOP, TAM and TWIN series radio controls.
- Frequency change function.
- More secure thanks to the dynamic code for the rolling code version.
- It can be configured remotely via gateway or locally via CAME KEY.

Dimensions (mm)

806RV-0010
806RV-0020

001RE432M
001RE862M

Operational limits

MODELS	806TS-0290
Max. range of radio (m)	50 ÷ 150

Technical characteristics

MODELS	806TS-0290
Combinations	4.294.967.896
Radio signal frequency (Mhz)	433,92 - 868,35
Battery type	1 CR2032 Lithium
Operating temperature (°C)	-20 ÷ +55
Material	Polycarbonate
