MTM

THE RANGE OF EXTERNAL MODULAR ENTRY PANELS

COMPATIBLE SYSTEMS

DIGITAL DIALING

The digital display allows a phone book with up to 7200 names to be displayed. During the programming phase you can choose the most appropriate search mode based on the number of users, a scrolling list or an alphabetical block search.

BUTTON COMPOSITION

On the call module, you can customise the amount of buttons required. Using a variety of modular front plates you can achieve maximum button composition flexibility. Available with 2, 3, 4 and 8 button front plates.

ACCESS CONTROL

The MTM range also includes 2 modules specifically for access control, one that is keypad operated and the other RDIF reader operated. Both modules are fitted with 2 on-board relay switches and 2 inputs for directly activating the relay switches.

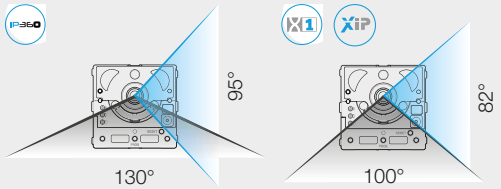

MTM has an extensive range of modular configurations, that are compatible with five different systems, allowing multiple functions to be carried out.

It's clean design has strong aesthetic appeal in all installation scenarios, while maintaining simple functionality.

Particular attention to detail has been paid to the finish, by eliminating the speaker holes, backlighting the keypad to give
it a sleek look, and using satin aluminium for durability.

IK07

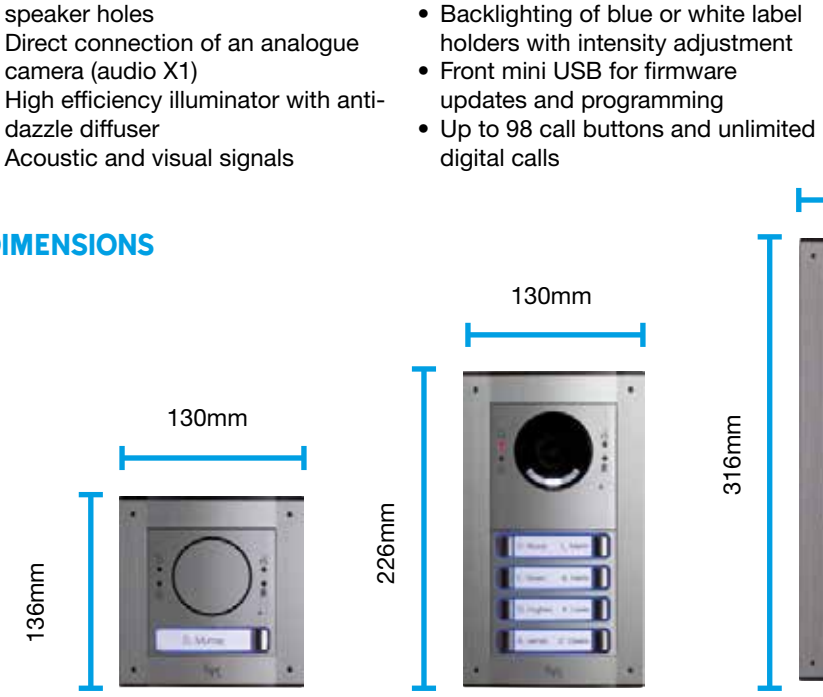

VISUAL ANGLE

FEATURES

- Anodised and frosted natural aluminum finish
- Unique design without typical speaker holes
- Direct connection of an analogue camera (audio X1)
- High efficiency illuminator with anti-dazzle diffuser
- Acoustic and visual signals
- HD resolution (IP Camera version only) and HDR technology (High Dynamic Range)
- Backlighting of blue or white label holders with intensity adjustment
- Front mini USB for firmware updates and programming
