

RGSM-1NCE

RGSM Connectivity Kit

Add RGSM Connectivity to your installation

- GSM Connect module
- 3 year 1nce 480MB SIM
- Antenna cable
- Bracket

Take advantage of cloud connectivity via CAME Connect. It takes just 2 minutes to wire the module to the control board and add your system via the app. Connectivity offers many advantages to installers:

- Live alerts
- Remote diagnostics
- Save time and money
- Manage transmitters remotely
- Change keypad codes remotely
- Eliminate costly call outs

Connect also offers many advantages to the end user:

- Open and close their installation via their smartphone
- Remote assistance from the installer
- Manage family access
- Assurance the service and maintenance is remotely monitored
