CAME ENTROTEC ED5

AUDIO RECEIVER

OVERVIEW

The ED5 Handset allows an occupant of a dwelling to answer a call from a visitor at a communal entrance and have a two-way simultaneous conversation. They can then enable the remote operation of the electric locking device to permit the visitor access. The ED5 is constructed from hard wearing HIPS plastic in a sleek and modern design. HIPS has good mechanical properties; impact resistance and toughness. The handset is a 'surface mount' design for easy installation.

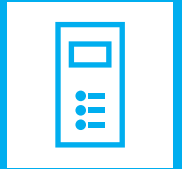

KEY FEATURES

- Door status indicator
- Privacy on/off function
- Concierge callback function
- Discreet matt white finish complementing a subtle design, with a depth of only 21mm
- Compatible with previous models
- Supplied with a mounting frame for easy installation

CAME ENTROTEC EV5

VIDEO RECEIVER

OVERVIEW

With its low profile, hardwearing HIPS plastic, surface mount design and bright 5" display the EV5 builds on its predecessors with a magnetic contact handset cradle capacitive soft touch buttons and discreet LED indicators. Compatible with APEX, Elite and legacy systems, the EV5 is the modern replacement for the EV and EV+ apartment stations. Timed privacy can be set to have an on/off privacy button or be set up as a timed privacy. this can be set for a client preferred period.

KEY FEATURES

- Sharp and crisp interactive TFT display - 5" 480 x 272
- Soft touch controls for brightness, contrast and colour adjustment
- White LED visual indicators sit beneath the surface, making the buttons easy to locate in low light settings
- Magnetic hand-up cradle switch
- Timed privacy can be set to have an on/off privacy button or be set as a timed privacy
- Discreet matt white finish complementing a subtle design, with a base depth of only 21mm
- Supplied with a mounting frame for easy installation

CAME ENTROTEC EV6

APARTMENT STATION

OVERVIEW

A modern, stylish apartment station developed to demonstrate that quality and style go hand in hand. Complementing the 5" interactive TFT display is a striking matt white finish. EV6 has been designed for low and high-rise private or general housing developments and multiple dwelling buildings.

KEY FEATURES

- Sharp and crisp interactive TFT display - 5" 480 x 272
- Soft touch controls for brightness, contrast and colour adjustment
- White LED visual indicators sit beneath the surface, making the buttons easy to locate in low light settings
- Timed privacy can be set to have an on/off privacy button or be set as a timed privacy
- Discreet matt white finish complementing a subtle design, with a depth of only 25mm
- Supplied with a mounting frame for easy installation
