

# ED3+

Audio handset

## Overview

The ED3+ Handset allows an occupant of a dwelling to answer a call from a visitor at a communal entrance and have a two-way simultaneous conversation. They can then enable the remote operation of the electric locking device to permit the visitor access.

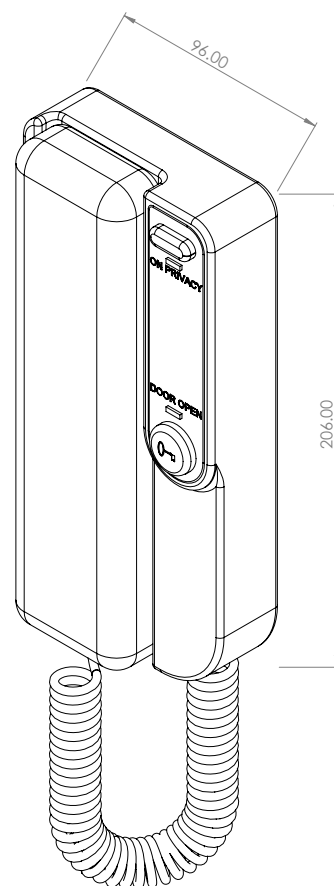

The ED3+ is constructed from hard wearing ABS plastic which has good mechanical properties; impact resistance and toughness. The handset is a 'surface mount' design for easy installation.

The ED3+ is compatible with APEX and ELITE systems and can be used with optional accessories that enhance accessibility; Sounder and Beacon.

### OPTIONAL ACCESSORY

**SOUNDER - 8 LED**  
Sounder/Beacon  
Enhances Accessibility.

## Technical characteristics

Buttons	Plastic tactile function buttons:
Door Release	Momentary, Illuminated Green LED
Privacy	Momentary, Illuminated Red LED. Latches on/off (no timeout)
