

## Overview

Entronet Lite is CAME Entrotec's single operator Porter style Concierge System. Working seamlessly with CAME Entrotec's Apex range of Door Entry Systems, Entronet Lite is an "active call" Concierge System that gives full control of door entry calls on an easy to use touch screen video handset.

Entronet Lite offers a single-operator multi-block operating platform.

Entronet Lite can connect up to 100 devices (Doors / Apartments) across multiple blocks.

## Entronet Lite Workstation

### Handset Features

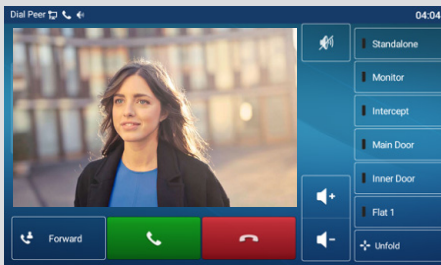

- 7" Colour Touch Screen Display
- Full Duplex Hands-free Speaker Phone with Advanced Acoustic Echo Cancellation
- Wideband Audio
- Video calls from Doors
- "Active" call handling – e.g. Calling Concierge when the Concierge is already handling a call will return a System Busy indication
- Control multiple blocks
- Access to the Apex Web Server interface
  - Tag flats as high risk
  - Key fob administration

## Entronet Lite Workstation Features

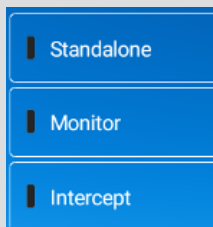

### Calls between Concierge and Visitors at Doors

- Video calls from visitors
- Raise a call to a door
- Unlock a door

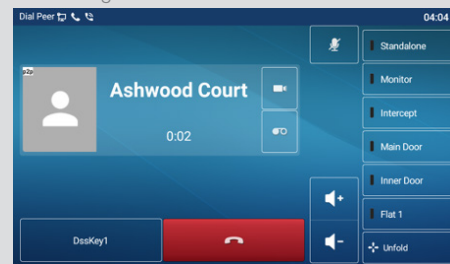

### Choice of Operating Modes

- Standalone – Does not intercept any calls
- Monitor – Calls accepted from doors
  - Calls from Doors to apartments tagged as high risk are intercepted
  - Concierge Call Back from Residents
- Intercept – Intercepts all calls from doors

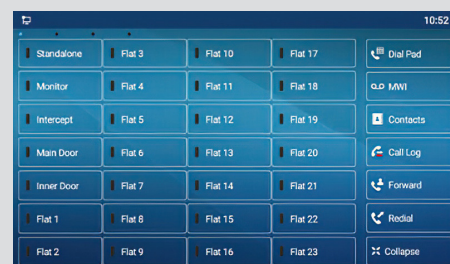

### Calls between Concierge and Residents

- Call Residents
- Concierge Call Back from Residents

### Console

- Up to 100 speed dial buttons to call:
  - Apartments
  - Doors

## Easitag Integration

- Entronet Lite can be integrated with an Apex Door Entry System with Easitag Access control for easy Keyfob management.
- Add and configure access credentials for occupants and visitors
- Manage authorisation levels for occupants, personnel and visitors
- Configure access areas, door groups and access levels with associated time profiles

## Entronet Gateway

Entronet Lite can be integrated with an Apex Door Entry System at any time, making the system truly Concierge Ready.

Entronet Lite connects to an Apex System through a retro-fit Entronet Gateway Cabinet housing all necessary equipment to convert analogue video, speech and RS485 data to a digital format. The Apex System can then be controlled over a standard IP infrastructure such as a broadband enabled telephone line (ADSL), Local Area Network (LAN) or Wide Area Network (WAN).

## Entronet Lite System Additions

EntroNet Lite is fully compatible with CAME Entrotec's scalable Apex Door Entry System.

CAME Entrotec can supply a range of additional products to complement the EntroNet Lite Porter System.

- ED5 Audio Handsets Available for Concierge Call Back
- EV+ Video Handsets Available for Concierge Call Back
- Can satisfy 'Mix and Match' requirements
- Integrated panel camera or separate CCTV cameras available for video systems

CAME Entrotec offers complementary Entronet training courses for experienced installers. Get in touch for further details.

Entronet Lite will be supplied pre-configured to individual project specifications.

For Operating Information please see Entronet Lite User Guide available on our website [www.came.com/entrotec](http://www.came.com/entrotec) or upon request.
