

READER RANGE

HIGH FREQUENCY AND LEGACY RESIDENTIAL ACCESS CONTROL

The CAME KMS range of SimpleKey readers provide all the benefits of CAME KMS residential access control, for use with either legacy or HF fobs and other ID devices.

- **Legacy readers** compatible with most types of legacy fobs including CAME KMS Shark Tooth PAC, Entrotag etc.
- **HF reader** provides all the benefits of CAME KMS residential access control, together with additional security via our bespoke HF technology.
- **Panel mount** reader uses the industry standard 40mm aperture enabling the reader to fit into most new and existing door entry panels.
- **Vandal Resistant** reader employing a robust stainless-steel case and fully potted electronics that can be used in environmentally challenging conditions.
- **Legacy and HF Readers** work with all types of CAME KMS systems and a range of other manufacturers controllers whilst the BUS readers only work with SimpleKey 4 systems.
- **Range of LED designs** (Blue/Red/Green) giving a number of engineering functions, as well as whether access is allowed or denied.
- **Robust** British designed and built readers for UK housing providers and comes with a life time guarantee.

INSTALLATION

The **Panel Mount** reader is designed to be mounted within metal panels, no thicker than 2.0mm with a 40mm square cut-out for the front of the reader.

Dimensions: 55mm × 55mm square × 11mm deep.

The **Vandal Resistant** can be fixed to any non-metallic surface using, the supplied, vandal resistant screws.

Dimensions: 100mm × 100mm square × 13mm deep.

The **Surface Mount** reader is designed to be fixed directly onto a wall or pedestal.

Dimensions: 100mm × 100mm square × 40mm deep.

Connected using standard alarm/1308/Cat 5 or above dependent on type and application.
