

SHARK TOOTH HF DUAL FOB

HIGH FREQUENCY RESIDENTIAL ACCESS CONTROL

The CAME KMS Shark Tooth HF Dual fob provides all the benefits of CAME KMS residential access control, together with additional security via our bespoke HF technology communications.

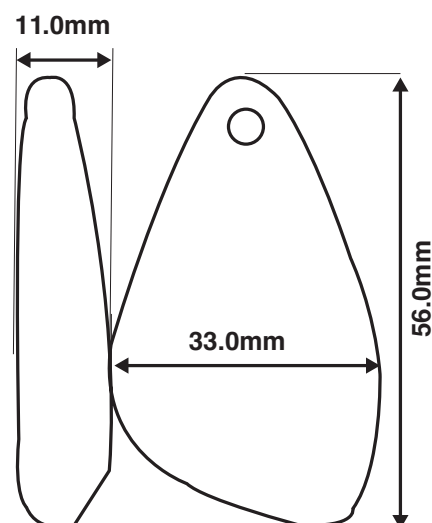

- **High frequency** developed using unique Mifare based protocol, providing a significantly greater level of security.
- **Compatibility** with the HF Reader taking advantage of the higher security. However it will work with all types of CAME KMS reader & can also be used with other manufacturers access control systems allowing an "as required" staged introduction into existing systems.
- **Differentiation** available with 10 different colour inserts, enabling identification between fob issued to an address or user type.
- **Robust** British designed and built fob for the UK housing providers and comes with a life time guarantee.
